

Step 3

Planning the Solution

Creating a Flowchart

Setting up constants within the flow-chart

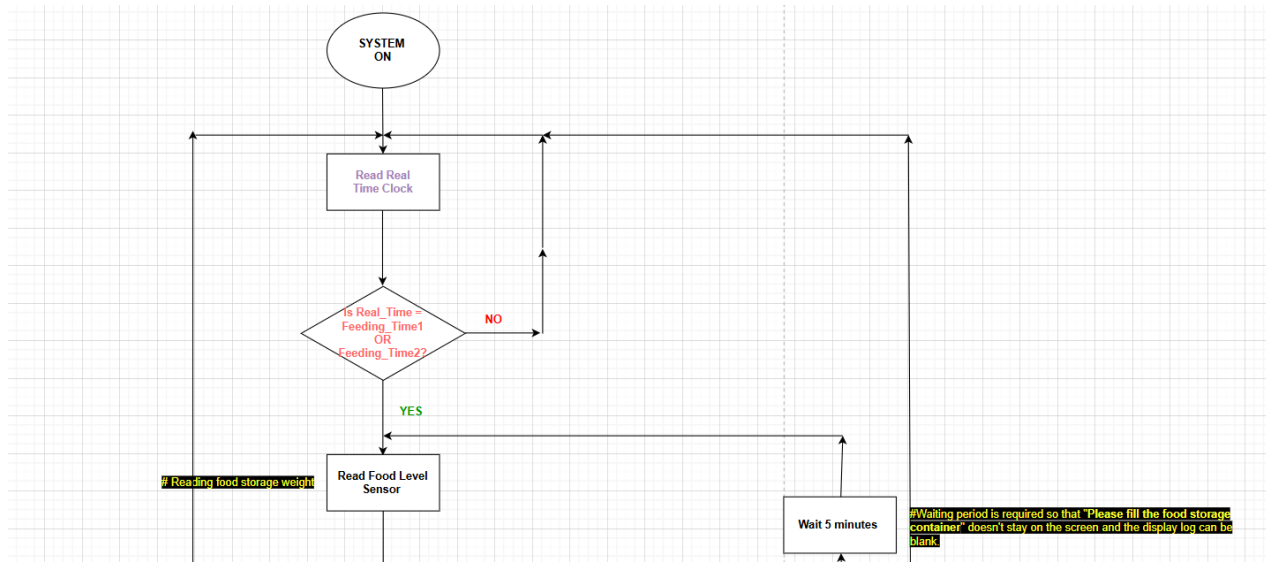

1. Feeding Times have been set as Feeding_Time1 (10:00) and Feeding_Time2 (18:00).
2. Food quantity for each feed is set as 200g.
3. The amount of food that can be held in the storage container is 1000g (1 kg).
4. 20 minutes is the average eating time set for each pet.
5. Display Log has been shortened to DL to indicate that the message has been shown in the Display Log.

The Flowchart

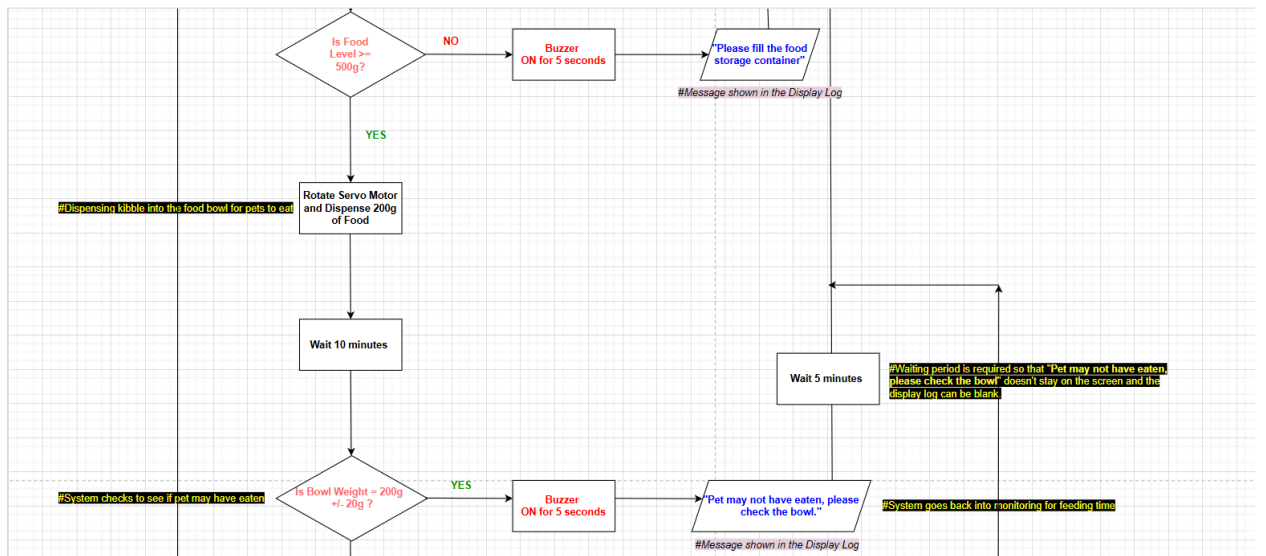

Divided into parts so that text can be seen clearer:

Part 1:

Part 2:

Part 3:
